## SUMMARY

Flutter Applications Developer eager to learn and grow through hands-on experience. I enjoy building mobile applications and exploring the full app development lifecycle. Currently seeking opportunities as a mobile applications developer where I can improve my skills, contribute to real projects, and learn from an experienced team to progress toward higher levels in my career.

## EXPERIENCE

### Flutter Developer

**PDP Academy's practicum**                                                                                   **undefined –**
**Freelance Flutter Developer**

### Flutter Developer

**Gimpact**                                                          **February 2025 – Present – at least 1 year,  Remote**
· Built and maintained cross-platform Flutter apps across e-commerce, healthcare, food delivery, and education.
· Implemented BLoC/GetX state management and scalable app architecture.
· Delivered pixel-perfect UI/UX .
· Integrated REST APIs, Firebase, maps, payments, and notifications for seamless user experience.
· Developed core features: auth flows (OTP, biometrics), real-time chat, order tracking, promotions, and onboarding.
· Collaborated in an agile team with backend and design to improve delivery speed and quality.
· Enhanced automated testing coverage by integrating unit, widget, and integration test suites, contributing to improved code reliability and simplified future feature expansion.

## PROJECT

### Mastery School app

play.google.com/store/apps/details?id=com.crm.MasterySchool
· A CRM system designed for an educational center

### Solvia math helper

Gimpact Apps · play.google.com/store/apps/details?id=com.gimpactapps.solvia
· &quot;A Flutter application that solves math problems by scanning them with the camera, providing step-by-step solutions and interactive explanations.&quot;

### Other Published Applications

t.me/my_portfolio_flutter
· Additional e-commerce, healthcare, food delivery, and chat applications are also available in my portfolio.

## EDUCATION

### Tashkent State Transport University.

Tashkent State Transport University, Aviation · Tashkent · 2022 –2026

### PDP Academy's Flutter Course 03.2023 –04.2024

## SKILLS

Third-Party Integrations: Google Maps, Yandex Maps, In-App Purchases, Payment gateways.

Version Control &amp; Collaboration: Git/GitHub, CI/CD basics (Fastlane, Play Console).

Flutter &amp; Dart: Knowledge of Dart (Streams, Futures, async/await, Isolates) and Flutter framework with experience in building production apps for both Android &amp; iOS.

State Management: Hands-on with BLoC (Equatable), GetX, and Provider for scalable and maintainable architecture.

UI/UX Development: Pixel-perfect UI implementation from Figma, responsive design, animations, custom widgets, dark/light mode, Cupertino &amp; Material design.

API &amp; Backend Integration: REST APIs (http, dio), WebSocket, Firebase services (Auth, Firestore, Realtime Database, Push Notifications).

Database Management: Hive, SharedPreferences, SQLite (basic).

Architecture &amp; Patterns: Clean Architecture, MVVM, and modular code structure.
